PARAMETERS

CCT(K) 3000 / 4000 / 5000 / 6500	Power Factor >0.9	Warranty 5 years
Input Voltage 100-240V	IP Level IP69K	Body PC+Alu

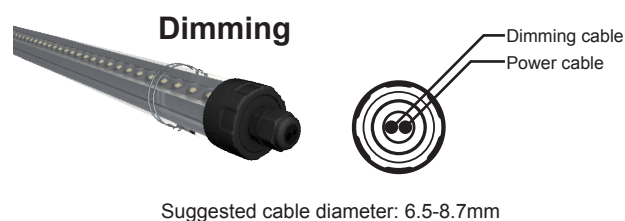

Type No.	Length	Power	Efficiency	Lumen	Beam Angle	Dimming	Cover Type	LED
365-0001	1500mm	65W	120lm/W	7800lm	160°	0-10V	Clear	Samsung
365-0003	1500mm	65W	130lm/W	8450lm	130°	0-10V	Frosted	Samsung
365-0005	1500mm	45W	130lm/W	5850lm	130°	0-10V	Frosted	Samsung

MAX AMPERAGE BY VOLTAGE OVERVIEW		
	VOLTAGE(AC)	230V
European Version	365-0001	0.295A
European Version	365-0003	0.295A
European Version	365-0005	0.2A

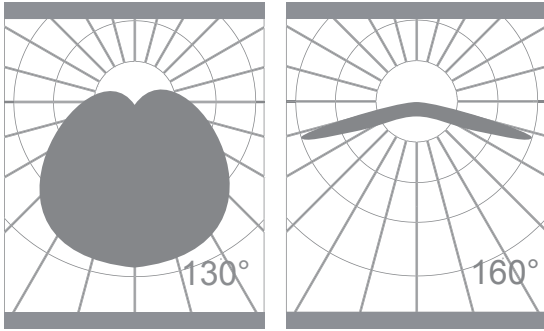

MAX CONNECTION QTY.		
	VOLTAGE(AC)	230V
European Version	365-0001	30pcs
European Version	365-0003	30pcs
European Version	365-0005	45pcs

Weight: 5.29lb/2.4kg
Package dimensions: 1700x40x35mm(20pcs 108.03lb/49kgs)

LIGHT DISTRIBUTION

Designed with a wide beam angle that allows very efficient use by spreading the light evenly across the full width of a poultry house / farm house from a centrally mounted, single row of luminaires. This avoids the hotspots and dark areas typical of batten or pendant lighting and is likely to reduce litter usage.

WHY CHOOSE OUR FARM LITE?

Rated Life

Quality components used within the manufacture of the lighting system, high quality Samsung LEDs provide a service life of in excess of 100,000 hrs when operated at 100% output.

Ammonia Proof

Designed for the poultry industry and common farm house, to accept the harsh environment. High protective level IP69K which means potted, corrosion-proof, clear tube made of PC gives protection against ingress of harming substances and fluids, protected against the degrading effects of Ammonia produced by poultry.

High Installation Efficiency

It can be installed as a single row down the centre or near-centre of the house. This allows for faster installations with fewer materials and lower labour costs than a multi-row system.

Pressure Wash Proof

Withstand washing with high water pressure.

Warranty

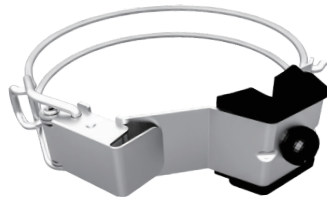

5 years warranty.

PRODUCT ACCESSORIES

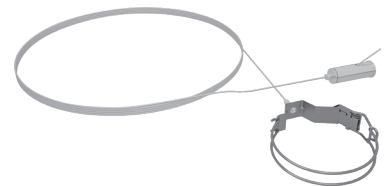

Stainless clips(1 pair)
for surface mounting
(365-A-0001)

Stainless clips with silicone pad(1 pair)
for mounted on the wire rope
(365-A-0004)

M20 PG thread waterproof end cap
(365-A-0003)

1.5m adjustable suspending kits (1 pair)
for suspending installation
(365-A-0002)
