MOON

MOON CEILING RECESSED

Uniform light create general glare-free illumination for all areas of application. A discrete appearance is combined with a vast multitude of variations, including different beams, outputs, CRI and colour finishes. Straight deep recessed perfectly solved comfortable lighting solution.

FORT

FORT CEILING RECESSED

Square recessed spotlight FORT square is a compact, square version of our successful round FORT series. The LED engine sits deep down in a conical cup, which means it is less visible. Besides the regular version, there is also an IP version for use in damp rooms or outdoor environments. Available with a white or black structure. FORT square is now also available in an upgraded FORT.

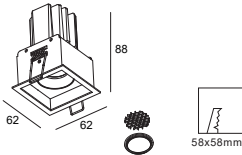

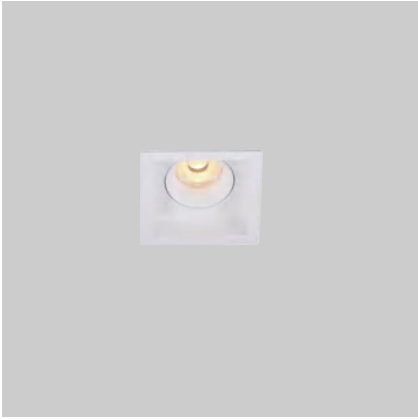

Square for LED version, using our M-LED 50 module. This allows you to choose from a large range of lighting colours (2700-4000K) and three different beam angles (spot, medium or flood).

DORI

DORI CEILING RECESSED

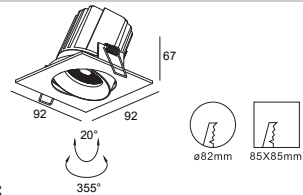

Back to basics , DORI meets every customer's requirements for a highly efficient retail lighting solution. Its ease-of installation, adjustability and the endless possibilities procured by different LED sources and different lamp versions (one, two or three lamps)make DORI an extremely versatile fixture. FOCUS ON THE ESSENTIALS. DORI presents a stylish frame, fitted with adjustable lamp units. In the single lamp version, the frame is square shaped, while the two and three lamp versions have a rectangular shape. The refined, directional downlight will be used mainly in retail applications, as a functional lighting solution It's perfect for situations that require both high efficiency and low consumption Range of lighting colours(2700-4000K)and three.

LED CEILING RECESSED

BET

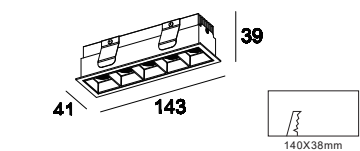

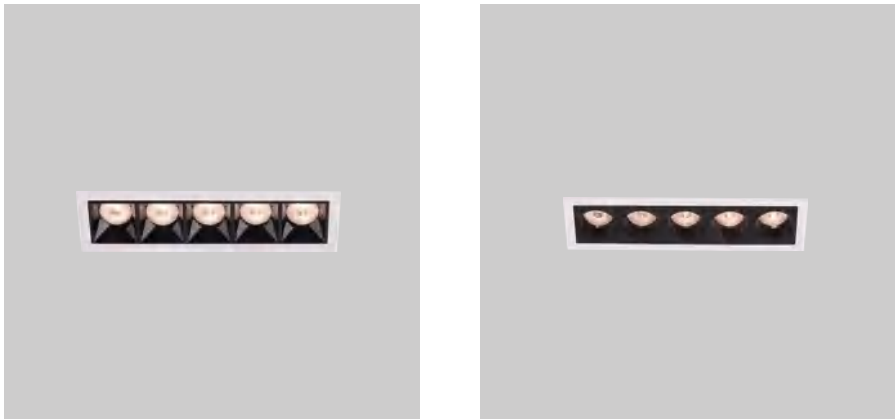

BET CEILING RECESSED

Concealing the body in false ceilings, allowing only space for light. Integrating impressively and subtly with the surrounding architecture, BET family directs the attention from the ceiling to your chosen shelves or products. With high quality, energy efficiency and superior visual comfort, certainly add value to works of art, whether they are displayed in a showcase, on a desk, in a museum or on the faces of the people around us.

DOT

DOT CEILING RECESSED

DOT series is super popular by the architects, which brings good solution for marker light and also decoration lighting for cabinets. Micro size is invisible but it is a must.

ALFA

ALFA CEILING RECESSED

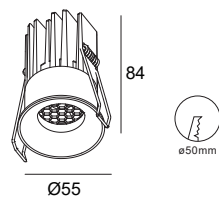

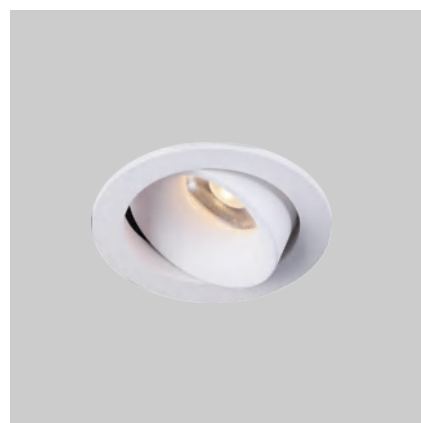

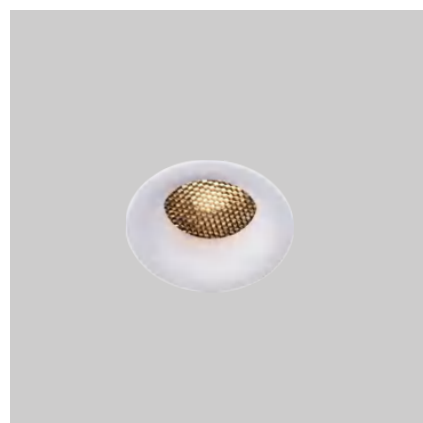

ALFA, with an elegant curve cover, is IP54, specifically designed for installation in wet rooms. With its low built-in height of ,it is one of the smart LED spots in the market. With its low recess height and easy installation way, ALFA adjustable type is a must in any room. The dedicated heat sink guarantees a long life cycle.

ROBO

ROBO CEILING RECESSED

ROBO in one stylish fixture just like in the ROBO symbol. L-shaped line divides ROBO into two equal, yet opposite, sections: the hard, surface mounted to the ceiling and the tube spot, which can be easily pointed in the direction of specific objects or places.

ROLL CEILING RECESSED

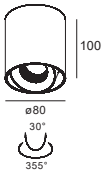

This chapter combines the ceiling surface mounted. These collections feature many carefully designed shapes for all preferences and purposes. We invite you to discover new levels in flexibility, exciting materials, colours and shapes, a wide variety of lighting effects and industry leading efficiency, enabling you to upgrade any project with customized lighting concepts.

GRILL

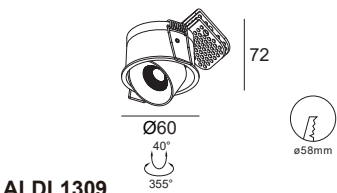

GRILL CEILING RECESSED

Highly versatile flagship luminaires series arzll 's Multiple-Multiple, Multipletrimless, Mini Multiple and Mini Multiple trimless is still a much coveted luminaire series and the flagship solution in our architectural lighting portfolio. The technology is on full display and allows all Multiple luminaires to fit well into both a minimalist and an industrial-chic environment. The light source can be directed in any desired angle thanks to the gimble system.

UNILED SOLUTION FOR ARCHITECTURAL ILLUMINATION

UNILED

PROFESSIONAL, COMPACT AND HIGH PERFORMANCE

Available in 1300lm, 2600lm,3300lm, and 3800lm LED sources for fixed versions, UNILEDARCHITECTURAL's compactness sets it apart. With only maximum 118 mm in depth, and 173mm in diameter they can guarantee a very low luminance. To be come with EXTRA outer ring, it will cover the retrofit project with the existed hole from 150mm to 220mm.

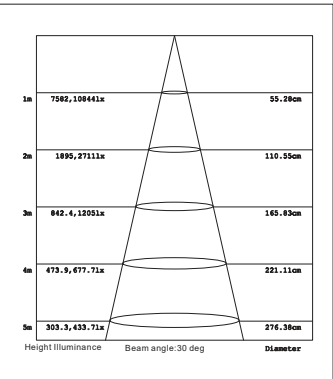

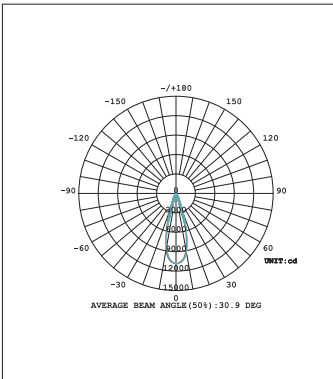

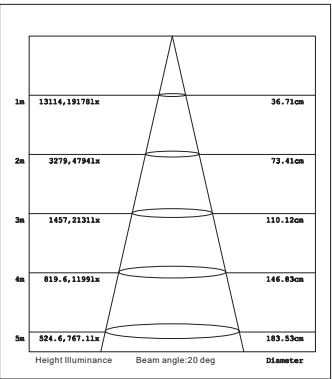

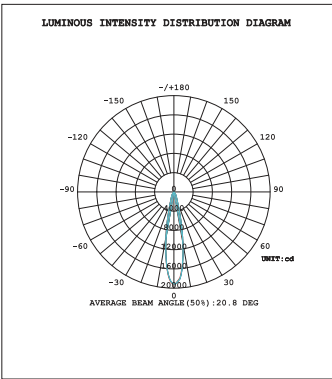

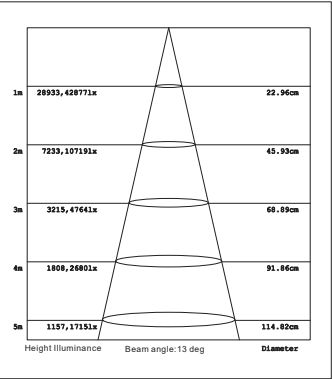

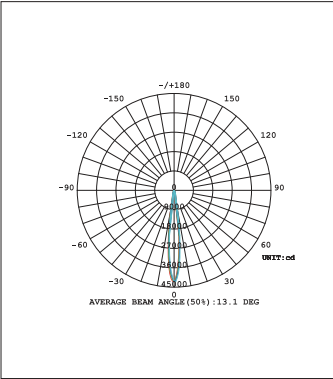

DIM

All the UNILED collection fixtures a choice of five different power supplies. Electronic, dimmable 1-10V which can be modulated with a "touch dimm" switch and DALI and PWM dimmable for more complex where the whole lighting installation may be digitally programmed and controlled.

COMFORT

13W to 39W LED consumption for an extremely original downlight, whose design and the completely hidden light source are able to create captivating atmospheres with great visual comfort. The final effect is extremely comfortable, keeping the performances in line with the EN 12464-1 standard(UGR<19).

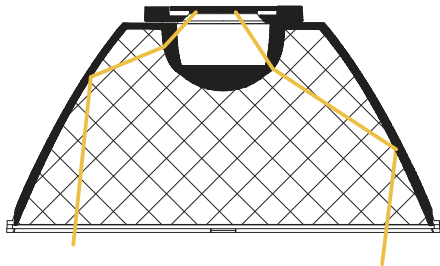

QUICK AND USER FRIENDLY INSTALLATION

The installation is identical for all versions: simple and quick by means of the patented new lift clips. The sliding of the brackets along a rack rod with an automatic progressive lift clips, provides a secure and immediate positioning of the fixture. Pre-wired with 400mm cable with fast connector to make sure quick and safe connection to the power supply. EU power plug is also available. The magnetic system of the TRIM will make this design smarter and exclusive.

LONG TERM RELIABILITY

As with the Downlight versions, the long term maintained performances of the LED source are guaranteed by the dissipation system. A distinctive feature both for its design and for the performance it guarantees. IP54 will extremely reduce the maintenance cost, therefore guaranteeing a constant performance in time.

26W-max 2600lm

33W-max 3300lm

39W-max 3800lm

UGR<19

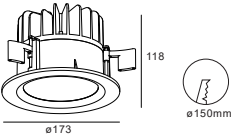

SMART

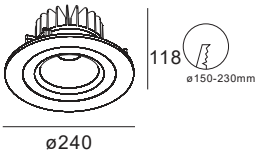

UNILED is not only characterised by the geometry of the reflector, but also by its combination with an innovative micro prismatic dome refractor that shields the LED source and distributes the light in a soft and diffused manner. UNILED is ideal where a diffused and perfectly homogeneous general lighting is required.

ECO

ECO CEILING RECESSED

ECO series provide an economic lighting solution for public application with flood beamangle. Booth SMD and COB are available. Quick male and femal connector helps a lot for maintance.
