KARE

Our dual-LED lighting series comes in both square and circular designs. Made of carefully selected premium materials and equipped with high-efficiency LED technology, it balances exceptional durability with long-lasting energy efficiency. Its minimalist design seamlessly complements diverse interior styles, featuring adjustable brightness levels and easy installation and operation for a sophisticated lighting experience.

MoCca

This series of downlights comes in single-head and multi-head models with distinct design. Supporting flexible installation like linear and circular arrays, they blend light, shadow and geometric aesthetics perfectly when embedded in ceilings. Providing uniform illumination, they also endow spaces with unique artistic charm, ideal for commercial exhibition halls and high-end home decoration.

YURI

YURI series with streamlined appearance, lightweight design and different swing methods, will become a classic product.

YURI has a series of wattage (3w, 7W, 10W), size and different optical angle. It is suitable for local lighting, such as home decoration lighting or oil painting lighting. It can also be used as space lighting to illuminate the whole space environment.

Simple and superior technical performance enables you to create unique lighting solutions.

MIX Spotlight

MIX series is outstanding for its flexibility.
Big family with 5W,8W,15W and 20W,
led souces with COB and SMD,
Recessed installation,
surface mounted and trimless.
All above offers variety of lighting effects
and application.
Its minmalist aesthetics modular
design cater for various decoration
needs.

EVA

EVA series: ultra-thin radiator solution for low ceilings. Choose from concentrating, lens, flooding optical structures, plus three-eye and four-eye light outlets. Supports recessed (fixed/swing angles) and surface mounting. With multiple beam angles, color temperatures and power options, it's ideal for engineering and interior design.

CEILING RECESSED
(DOWN LIGHT)

MIX DownLight

MIX series is outstanding for its flexibility.
Big family with 5W,8W,15W and 20W,
led souces with COB and SMD,
Recessed installation,
surface mounted and trimless.
All above offers variety of lighting effects
and application.
Its minmalist aesthetics modular
design cater for various decoration
needs.

VISSA

CLARION series, the 3-fold optical design hides the light source deeply,
the honeycomb net filters the dazzling light,
there is no visible direct light,
and the light is soft and natural without dazzling.
Excellent luminous efficiency, compact lamp body appearance,
there are two styles of fixed and
adjustable angle to choose first.

SATURN

We believe that everything in the universe comes from stars.
The designer suddenly came up with an idea,
hoping that stars, the source of life,
could walk into our light space.
The designer broke the routine and added high-quality
light efficiency solutions with the minimalist
design method of FAST style.
So that the stars may come into your
light space.
